Treadwall

Traversing Bouldering Wall

16 February 2007 - SuperStar Virgo lives up to its reputation of providing the best cruise experiences onboard. It is now geared for more exciting times and activities for its cruisers with the latest and world-famous rotating climbing wall, the Treadwall, a first for cruisers in the region. Also, children are sure to have a time of their life with the Traversing Bouldering Wall, recommended for the young ones aged between five and twelve.

The Treadwall incorporates auto-stop technology for self-paced, motor-less climbing with adjustable angles and holds. It's simple to use as there is nothing to strap on, no other equipment required. Climbers just adjust their rate of ascent with the twist of a knob and the climbing angle changes with the turn of a wheel. It's totally fun as well as reliable as the Treadwall has a proven track record with more than a thousand Treadwalls in place worldwide.

The Treadwall is very safe as climbers are never more than 1-2 feet off the floor. When it's time to stop, climbers just step down to the floor. As well as no experience is necessary; if one can run, one can climb. Just hop on and go as the climber sets his or her own pace. The Treadwall will stop and go automatically as one climbs. It's that simple. And fun!

The Treadwall is an excellent aerobic trainer as it has a Polar® heart-rate receiver, that will monitor the heart rate of the climber, integrated right into the Treadwalls' counter-timer unit.

The other climbing activity is the colourful Traversing Bouldering Wall recommended for children from 5 years to 12 years old. This Wall provides exceptional fun that is safe and yet challenging for young cruisers.

Besides these new features providing cruisers with an awesome time onboard, the endless exciting onboard activities as well as world-class shows, continue to provide cruisers with

an international entertainment and recreation experience. Come and experience a fantastic time with Asia's best!
